**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-16, drawn to a method for scheduling a real-time meeting between a requester of said meeting and a target user by means of a computer system, classified in class 705, subclass 8.
  - II. Claims 17-27, drawn to a method for establishing a conference based on the priority of the attendants in a multicomputer network, classified in class 709, subclass 204.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has a separate utility such as scheduling a real-time meeting between attendants based on availability (i.e. no priority is needed). Invention II has a separate utility in the instant case, such as prioritization of requestors waiting in a queue. Invention II processes multiple conferencing requests at a server by evaluating each request based on its attributes. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Ms. Rimma Budnitskaya on 01/25/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2163

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Beth Van Doren whose telephone number is (703) 305-3882. The examiner can normally be reached on M-F, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tariq Hafiz, can be reached at (703) 305-9643. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 746-7239 for regular communications and (703) 746-7236 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-1111.
